OUR COMPANY PROFILE

A. WHO WE ARE - WELCOME TO CHRISDAN ENTERPRISE LIMITED (AUTO GARAGE)

Chrisdan Enterprise Limited is a full auto body and auto service centre and workshop first established in 2021 as a partnership then incorporating as a company limited by shares in 2023 and located at Simbi Complex along Falcon Road, off Enterprise Road, Industrial Area, Nairobi.

We are well recognized for our reliable, quality workmanship and have gained popularity among private/corporate market and insurance companies for our customer focused and reliable service. We are duly registered and certified as a private garage by Ministry of Roads and Transport to carry out repairs of government motor vehicles and equipment.

Chrisdan Enterprise Limited specializes in service, repair and maintenance of all types of vehicles – Japanese, European, American and all other makes.

Our Workshop specializes in:

- ❖ Collision and Accident Repairs
- ❖ Panel beating
- ❖ Spray painting
- ❖ Mechanical repairs
- ❖ Computer diagnosis and error fixing
- ❖ Upholstery repairs and restoration

Our Service Centre specializes in:

- Quick service
- Diagnosis
- Suspension
- Brakes
- Wheel alignment and balancing
- Auto body repairs and restoration

OUR VISION

To be the preferred automotive repairs, diagnostics and service shop in Kenya.

OUR MISSION

Providing a comprehensive yet affordable automotive repairs, diagnostics and service that meet specific needs of our clients and exceed their expectations for quality, value and customer service.

OUR CORE VALUES

Integrity

At Chrisdan Enterprise Ltd, we take individual and collective responsibility for keeping our promises, acting ethically and demonstrating acceptable business conduct at all times. We believe it is the right thing to do.

Quality in Customer Service

As Chrisdan Enterprise Ltd, we set exacting standards in service delivery and strive for consistency and precision in everything we do. We are committed to continual improvement of our capabilities.

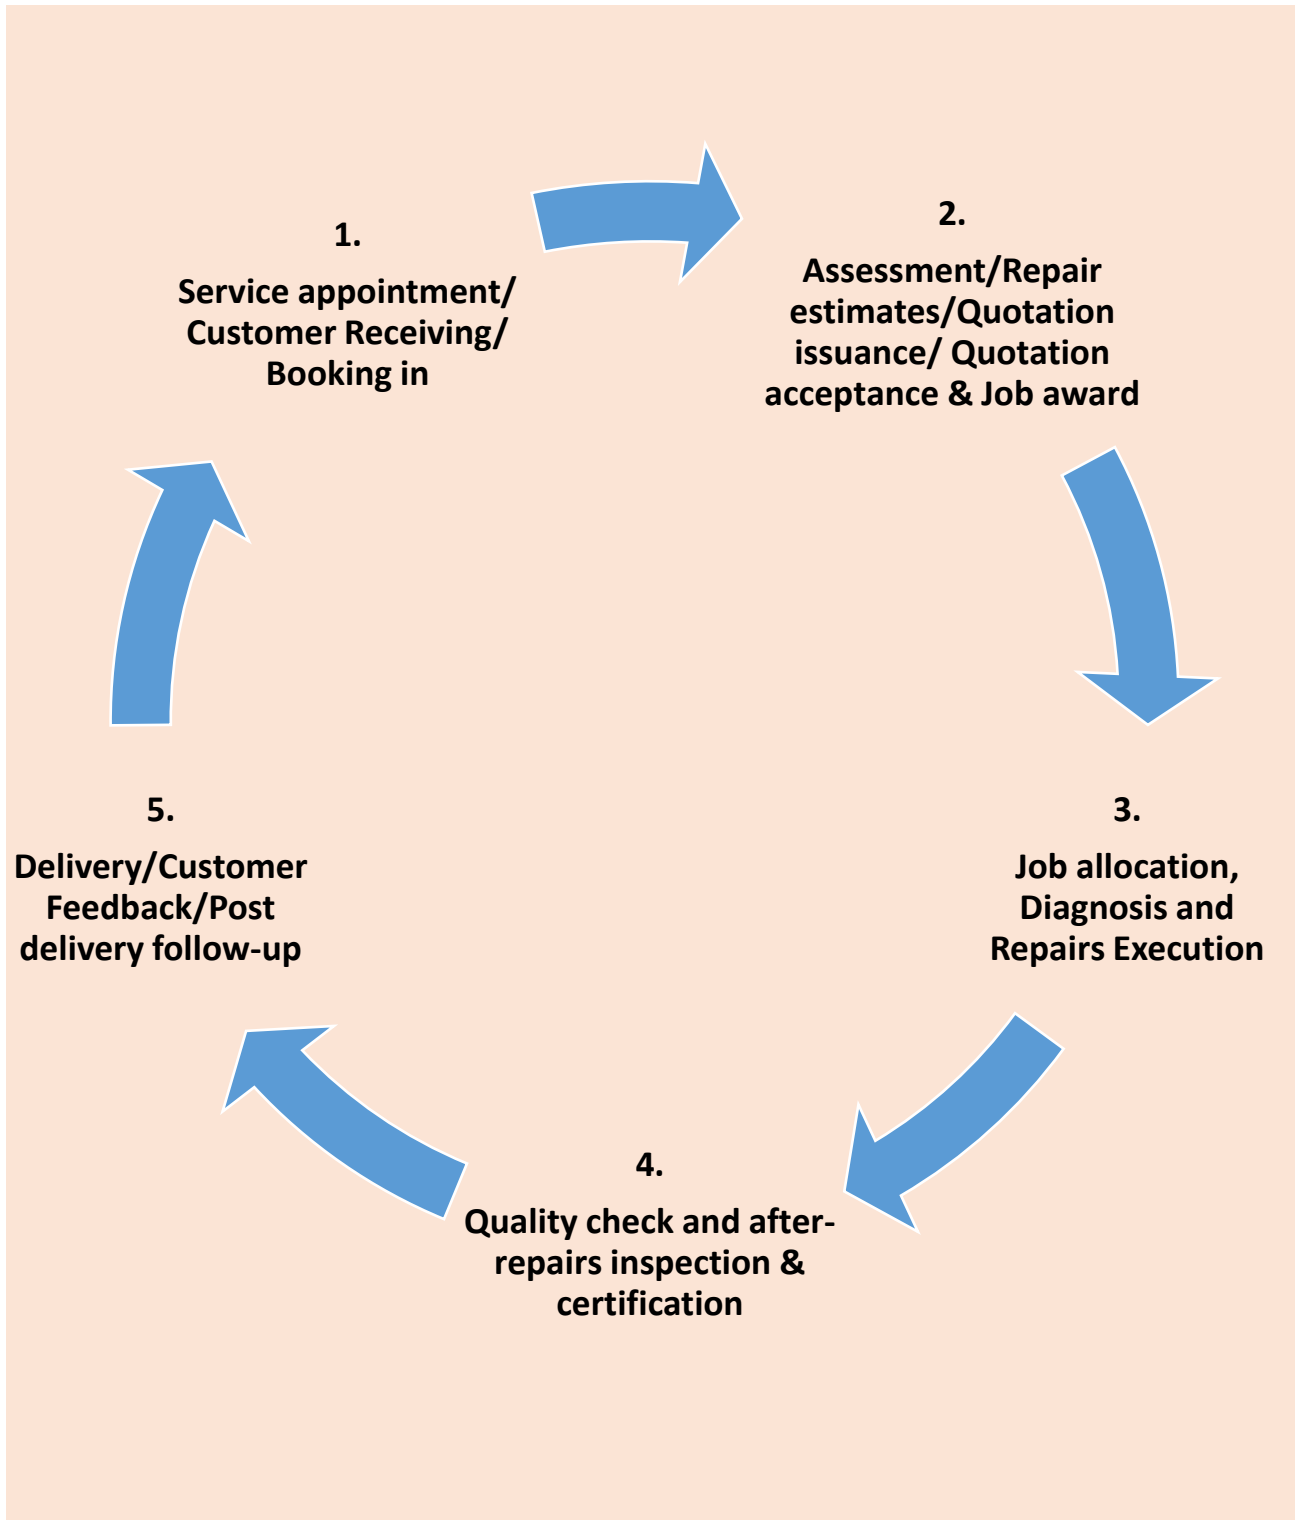

Excellence

At Chrisdan Enterprise Ltd, we passionately strive to exceed the expectations of our customers, associates and shareholders and win in the market place. We do the right things in a superior manner while striving for continuous improvement.

Financial Success

As Chrisdan Enterprise Ltd, we shall strive to consistently grow our business so as to create sustainable economic value today and into the future.

B. OUR QUALITY AND SERVICE DELIVERY CYCLE

C. OUR COMPANY HISTORY & SERVICE OFFERINGS

Our company history and future

Our company started off on 24th September 2021 as Chrisdan Enterprise, a partnership idea, with the aim of tapping into the ever expanding automotive repairs segment of the informal 'JUA-KALI' sector under the micro, small and medium enterprises (MSMEs) industry leveraging on over 30 years of hands-on-experience of the founding partners cumulatively in the segment. With limited cash to capitalize the business and armed only with their toolboxes, the start-up was not easy. However, driven by the Vision and leveraging on our Core values, our clients base has since grown multiple-folds from that single walk-in customer back in September 2021 to current corporate clients that include state departments, state agencies and insurance companies. Driven by our ambition to grow the business further and be more responsive to our clients, on the 8th November 2023, Chrisdan Enterprise Limited was incorporated to which all business activities hitherto carried out under the seal of Chrisdan Enterprise transitioned effective 1st July 2024.

Our core competencies:

- Motor vehicle engine service
- Mechanical repairs including engine overhauls, gear system, suspension
- Cooling system repairs and service
- Electrical and autotronics repairs and service including computer diagnostics and errors fixing
- Automotive exhaust and stack emissions testing
- Panel beating and body repairs
- Spray painting
- Upholstery repairs and interior cleaning
- Car accessories re-sale i.e. batteries and tires re-sale

and Director

Christine Omondi is a founding director of Chrisdan Enterprise Ltd and as Administration Manager is responsible for corporate governance, compliance and customer relationships management. Christine has over 5 years of working experience gained in compliance, operations, quality and customer relationship management. She earned her Bachelor's degree in Mechanical Engineering from Egerton University and has undertaken numerous trainings organized by the State Department, United States of America in chemical security and safety. Christine is passionate about sustainability, innovation and excellence.

Daniel O. Ogicho
Chief Engineer, Workshop Manager
and Director

Daniel Ogicho, a founding director of Chrisdan Enterprise Ltd is our Chief Engineer and Workshop Manager responsible for all technical staff. In this role, Daniel oversees execution of our quality and service delivery cycle from motor vehicle pre-repairs assessment and inspection to post repairs re-inspection with hands on-experience spanning over 20 years in motor vehicle repairs and workshop management. Daniel is an advanced automotive craft technician and has attended numerous automotive courses in Kenya.

H. CHRIS DAN ENTERPRISE LTD – AUTO REPAIRS WORKSHOP

Our workshop specializes in repair and maintenance of all types of vehicles.

H.1 COLLISION AND ACCIDENT REPAIRS

During the collision repair process, our technicians assisted by an electronic measuring system analyses the car to restore it as close as possible to its basic factory settings. This is an important step as it ensures the car frame remains structurally sound. If needed, wheel alignment and other suspension repairs are done.

H.2 PANEL BEATING

This process involves removing, repairing and replacing damaged panels as well as spray painting, chassis alignment and re-fitting body hardware.

H.3 SPRAY PAINTING

This process is done immediately after panel beating and involves sanding and cleaning of the vehicle, covering and taping surfaces that are not paintable, priming affected surfaces and allowing primer to cure and then sand the vehicle once more to make it ready for painting under controlled environment in an enclosure.

H.4 MECHANICAL REPAIRS

This is scheduled maintenance of wear and tear of mechanical parts in the vehicle which require replacement on a timely manner.

H.5 COMPUTER DIAGNOSIS

We perform a diagnostic test mainly to confirm health of all the electrical and electronic components as well as the computerized systems in the vehicle.

Diagnostic tests can reveal problems within a car's engine, transmission, exhaust system, brakes and other major components, as well as performance issues with the fuel injector, air flow and coolant, ignition coils and throttle system.

I. CHRIS DAN ENTERPRISE LTD – AUTO SERVICE CENTRE

I.1 QUICK SERVICE

Our Quick Service typically involves change of oil and filters with brake adjustments and greasing with a free mechanical health check.

This is a series of maintenance procedures carried out at a set time interval or after the vehicle has travelled and covered a prescribed distance.

I.2 SUSPENSION AND BRAKES

Suspension is checking of faulty or worn out shocks, struts, springs, tie rod ends, rack ends, ball joints or mountings that can wreak havoc on your automobile and make your car unsafe to drive.

Brakes is the repair or replacement of auto brake parts which may include: brake pads, brake linings, rotors, calipers for every vehicle regardless of whether new or old.

I.3 WHEEL ALIGNMENT

Wheel alignment ensures your tires meet the road at the proper angle, your wheels positioned and pointing straight and your tires centered. It adjusts the angles of your vehicle's wheels to the original specifications to achieve better fuel efficiency, improve vehicle handling and extends your tire life by reducing wear and tear.

I.4 WHEEL BALANCING

Wheel balancing or tire balancing is the process of equalizing the weight of the combined tire and wheel assembly so that it spins smoothly without causing any vibrations.

I.5 AUTO BODY REPAIR AND RESTORATION

This involves repairing the damage on the exterior and non-moving parts of a vehicle to restore it to match the original basic conditions. It includes exterior and interior detailing and full body buffing.
